

# EPEERTS

You may be wondering how we got the name of this shade structure. Well it might just explain a little something about its form. It began with the Treepees and we flipped them upside down, causing us to flip the word. In doing so we have created a shade structure for people to dance under all day and night long. In the day it provides shade and by night they are illuminated and transformed into a colorful marvel.

## SPECIFICATIONS

<b>WIDTH</b>	32 FT
<b>DEPTH</b>	32 FT
<b>HEIGHT</b>	21 TO 30 FT
