

# QUINOA

The Quinoa is our answer to the ubiquitous white canvas tents that seem to occupy every event these days, but the unique thing is, is that it comes in white or bright colors. With over 4,750 sq. ft. of usable space Quinoa literally “hugs” you as you stand inside, creating a compelling and creative alternative tent space for parties, shows, workshops, or whatever your needs may be. An eye catching yet simple design fit for any large-scale occasion.
